# Cuisinart® CUSTOM-CLAD

## 5-Ply Stainless Steel Cookware

Introducing Cuisinart® Custom-Clad, our first-ever 5-Ply Stainless Steel Cookware collection, which brings innovative design, elegant style, and enhanced performance to kitchens everywhere. Each piece is constructed with an induction-compatible stainless steel exterior, durable 18/10 stainless steel cooking surface, and a triple aluminum core that spreads heat evenly, eliminating "hot spots." Ideal for all stovetops including induction, Cuisinart® Custom-Clad features a special 5-ply composition that provides precise temperature control for savory pasta dishes, risottos and delicate sauces. Consistent and even heat also keeps oil at just the right temperature for perfectly fried or seared meals. From simmering a pot of soup for one to preparing a five-course feast for the family, this versatile 10-piece set makes every meal memorable.

**Stainless 5-Ply Construction**
