# Cuisinart® Programmable 5-Cup Percolator & Electric Kettle

Introducing the ultimate multi-beverage brewing experience. The Cuisinart® Programmable 5-Cup Percolator & Electric Kettle uses innovative technology to brew up to 5 perfect cups of coffee or heat water for tea in one compact unit. A magnetic drive system circulates water from the bottom up to the filter, extracting optimal flavor from grounds. Hot drinks are easy to customize with adjustable time, temperature, and brew strength. Water remains at a steady temperature for robust flavor and the 1-liter glass carafe doubles as an electric kettle that boils water for tea, soups and hot cereals. Complete with 30-minute Keep Warm plate, stainless steel reusable filter, and ergonomic handle, the Programmable 5-Cup Percolator & Electric Kettle brings all the beverage variety of a professional barista home to you.

- Multi-beverage system-brews up to 5 cups of coffee
- Doubles as a 1-liter electric kettle
- Unique brewing system circulates water from bottom while maintaining a constant temperature to optimize extraction
